To Whom It May Concern:

I have worked closely with Custom Assembly for 20 years and as President of Test Connections Inc., it is my great pleasure to recommend this company for any project that is presented to them. Having watched CAI grow over the years I have always been impressed by Joni & Kevin Hogie's professionalism, as well as the personable working relationship that has developed in that time. I have found that their entire staff has a great attention to detail and offer timely responses on the many projects we have worked on together. Additionally, they have made our products better by challenging us with new and innovative ideas for our products.

Custom Assembly, Inc., is an ideal customer as well as a trusted company who manufactures high quality products and it is my personal and professional honor to recommend them to you.

Best Regards,

Michael A. Curtis
